GRAPHISOFT PARK SE

Interim Management Report – Fourth Quarter 2024

February 20, 2025

Executive Summary

The **pro forma net profit for 2024 is 7.96 million euros**, which – in line with our previous forecast – exceeds the exceptionally high result of the previous year – which is also due to one-off items – by approximately 100 thousand euros, or 1%. This stable result is partly due to the strong tenant base of the office park: the vacancy rate typical of the Budapest office market in recent years did not occur in Graphisoft Park, which – despite the decreasing rate of rent indexation – ensured a favorable development of rental revenue. In addition, some tenants who reduced their leased area before the expiration of the contract paid one-off compensation, which also has a positive impact on this year's net profit, but this will of course be absent from the results of the following periods. Based on all of this, the Board of Directors plans to propose to the General Meeting a dividend payment of around 7.2 million euros, corresponding to 90% of the pro forma profit for 2024, that is approximately **71 euro cents per ordinary share**.

The **occupancy rate** of Graphisoft Park at the end of 2024 is **94%**, which is a 1% decrease compared to the first half of the year, but it is still significantly higher than the current average of 86% for the Budapest office market. The current uncertain economic environment and the demand for hybrid working have a noticeable impact on the office market; in addition to the decrease in demand for office space, the demands for the function of rental properties are also constantly changing, which is why the flexibility of landlords plays a key role. However, it can be stated that Graphisoft Park tenants typically commit to a longer period of time compared to the national average. This is due, on the one hand, to the unique natural features of the park, the environment created by the technological and IT focus, and, on the other hand, to the ability to flexibly adapt to changing tenant needs. In the second half of the year, the Park renewed its lease agreements with two of its major tenants, SAP Hungary Kft. for another 10 years, and with the software company Graphisoft SE for another 5 years, which **increased the average remaining lease term (WAULT) to almost 5 years**. In February 2025, another major tenant extended its lease agreement of 3.500 m^2 for an additional 5 years, contributing to increasing the value of WAULT. The figure that reflects the commitment of the Park's tenants even better is the **average lease term in the Park calculated with the starting date of all current tenants' earliest lease agreements**, which is still stable at **over 15 years**.

Despite the above, for 2025, we are prudent in line with our previous forecasts. Due to the challenges of the real estate market and the effects of the unfavorable economic environment, we are forecasting a certain degree of vacancy and tenant risk, and we are also counting on continuous developments in line with our ESG goals and their cost impact. On the other hand, we do not count on extraordinary compensation to be paid due to early contract terminations, so overall, based on our current estimates, a **net result of 7 million euros is expected**, which is less than this year's result.

Development areas

In addition to the South Park building delivered in 2019, a nearly 4,000 m^2 office building can be built, for which the Company has a valid building permit. This development opportunity - given the high occupancy rate of the office park - provides flexibility to handle future tenant changes and creates an opportunity to implement minor growth needs of existing tenants. The Company will decide on the launch of the project later, taking into account tenant needs and also the building and construction conditions.

However, based on current office market trends, **no significant increase in demand for offices is expected** in the near future, so the Company has come to the conclusion – as announced on May 13, 2024 – to examine the possibility of **developing residential and related service units in the southern development area**. Graphisoft Park has therefore concluded a cooperation agreement with Synergy Construction Hungary Kft. to explore the possibilities. Following the completion of the assessment, the partner company will also have the opportunity – expectedly in the first quarter of 2025 – to purchase the area or the project company that owns it, under the conditions specified in the Cooperation Agreement.

As a result of the previous gas production activity, the **northern development area** is contaminated, the rehabilitation of which is the obligation of MVM Next Energiakereskedelmi Zrt. The first final order in this regard was issued in 2015. Over the years that have passed since then, the official deadlines for carrying out remediation have been extended several times, and typically - while the actual remediation has not even begun - a new regulation was published a few days before the deadline expired and another modified deadline was established. Most recently, on December 20, 2024, a new legislative amendment prescribed a **mandatory review of the remediation method** by December 31, 2026, without specifying any new deadline for the actual completion of the remediation. On January 21, 2025, Graphisoft Park initiated a judicial review procedure, known as an **administrative lawsuit** against the decision, as according to its position, the decision violates the Constitution, and the rule of law norms were not applied. In the current situation, there is still no realistic opportunity to begin substantial developments in the northern development area in the foreseeable future.

Pro forma results and forecast

Our 2024 "pro forma" results developed favorably: in addition to the stable utilization, as a result of the euro-based indexation, **rental revenue exceeded** the same period of the previous year by 400 thousand euros, that is **2.5%**. The other income basically reflects the result of the construction and renovation of the rental property requested and financed by the tenants, while the current period result is significantly improved by the lump-sum compensation paid by certain tenants for the reduction of the rent before the expiry of their contract.

The **15% increase in operating costs** primarily reflects the effect of inflationary fee increases. **Depreciation decreased by 7%** compared to the previous year due to the depletion of some older assets. At the same time, the **financial result is less favorable**: although the interest payable on the capital outstanding decreased due to the loan repayments, the interest income realized on free funds fell short in the changed interest environment, compared to the outstanding result of the previous year. Furthermore, due to the weakening forint, exchange rate losses occurred on our forint-denominated assets.

The **income tax expense** was higher due to the self-revision carried out by the Company for the innovation contribution payment obligation for previous years.

As a combined effect of all this, in the first three quarters of 2024, **EBITDA exceeded the same period of the previous year by 600 thousand euros, or 4%, and the profit after tax exceeded by 100 thousand euros, that is 1%.**

(million euros)	2022 actual	2023 actual	*2024 actual*	*2025 forecast*
Rental revenue	**15.54**	**16.85**	**17.26**	***16.7***
Other income (net)	0.64	0.57	1.00	*0.5*
Operating expense	(1.42)	(1.61)	(1.86)	*(2.1)*
EBITDA	**14.76**	**15.81**	**16.40**	***15.1***
Depreciation	(7.01)	(6.94)	(6.45)	*(6.4)*
Operating profit	**7.75**	**8.87**	**9.95**	***8.7***
Net financial result	(1.71)	(0.99)	(1.63)	*(1.6)*
Profit before tax	**6.04**	**7.88**	**8.32**	***7.1***
Income tax expense	(0.02)	(0.02)	(0.36)	*(0.1)*
Net profit	**6.02**	**7.86**	**7.96**	***7.0***

For 2025, we expect vacancy risks and a reduction in the indexation of rents, due to the changing office usage habits and the uncertain economic environment. Based on all of this, according to our current calculations, **in 2025**, **rental revenue** is expected to be around **16.7 million euros**, approximately 3% lower than in 2024. In 2024, lump-sum compensations paid by certain tenants for area reductions before the contract expiration were accounted under **other income**; we do not expect such one-off items **in 2025**, so assuming the average development of other income, we expect other income to be **500 thousand euros less** than in 2024. In terms of **operating costs**, an **increase of approximately 13%** is expected **in 2025**, partly due to the increase in service fees, the increase in personnel payments and new cost elements arising in connection with the targets set in our ESG strategy. The capitalization of energy efficiency developments may offset the expected decrease in depreciation due to the depletion of certain older assets, so we expect **depreciation to be like the previous year in 2025**. We do not expect a significant change in financial costs, a **net financial expense of 1.6 million euros** is expected. Overall, we expect a lower **net result of 7 million euros** for 2025, falling short of the outstanding results of 2023 and 2024 due to one-off items, which, however, exceed the net result of 2022 by approximately 17% even without one-off profit-increasing items.

Property portfolio and fair value of net assets

At the end of 2024 Q4, the independent valuer estimated the **fair value of the real estate portfolio at 230.6 million euros**, which represents a **5.1 million euro increase** compared to the end of 2023. This increase is primarily related to the **fair value of the completed and delivered properties** (4.1 million euros): in addition to the minor decrease in yield expectations, the utilization of the buildings is above average, the average remaining lease term has doubled as a result of significant lease contract renewals in 2024, which proves the stability and commitment of the office park's tenants; and this also changes the inputs used for the valuation. As a result of all this, according to the calculations of the independent valuer, the **fair value of the revenue generating properties increased to 216 million euros**. The fair value[1] of the **development lands** increased by a smaller amount (1 million euro): the change in the value of the lands was caused by the updated development costs

[1] The fair value of all development lands was determined as the present value of potential future office development and does not take into account the expected impact of any potential residential development.

and potential rental fees; even with a slightly higher rate of return, their estimated fair value totaled **14.6 million euros** at the end of the year.

Due to the interest levels experienced in the eurozone, the **fair value[2] of the interest rate swap hedging transactions** concluded by the Company to fix the interest rates of its euro-based loans **is still favorable**, which increase is reflected in equity (net asset value). In the meantime, the Company's outstanding **loan portfolio** went down to **79 million euros** due to continuous repayments.

At the end of the year the Company's **cash balance is nearly 13 million euros,** which ensures the long-term safe operation of the company, the financing of tenant designs, building upgrades and renovations(with particular regard to the larger investments planned under our decarbonization strategy – see below), as well as the financing of smaller new developments that may become necessary in the event of such a demand. In addition, the cash balance also forms a reserve for the possible negative effects of changing economic conditions and also ensures the continuation of a predictable and transparent dividend policy, based on which the Board of Directors plans to propose to the General Meeting a dividend payment of 7.2 million euros, corresponding to 90% of the pro forma profit.

Overall, due to the increase in the fair value of the real estate portfolio and, in addition to the decreasing outstanding loans, the increasing cash reserve, the **net asset fair value** of the Company exceeded the previous yearend's value by more than 9 million euros and reached nearly **168 million euros.**

Decarbonization strategy

In addition to the transformation of the function of the office spaces, an important aspect and goal is the continuous reduction of the carbon footprint of the buildings, as well as the development and implementation of the Park's decarbonization strategy together with the tenants. The Company presented its considerations, objectives and their follow-up in the sustainability reports of the last two years. The provisions of the CSRD[4] and the Hungarian ESG Act apply to our Company from 2026, so we have started preparing for the corresponding

[2] The fair value of hedges is intended, among other things, to estimate how much more expensive (in the case of a negative fair value, cheaper) a similar loan could be obtained today. In addition to the current market interest rate environment, the fair value is influenced by several external factors (HUF/EUR exchange rate, monetary policy measures or future interest rate expectations). The development of these factors may result in a significant and in some cases unpredictable changes in the direction and degree of change in the fair value.
[3] IFRS consolidated own equity per share
[4] Corporate Sustainability Reporting Directive

reporting obligations. Our 2024 sustainability report, like the previous ones, will be prepared with reference to the GRI[5] standards.

As a key part of our objectives, **solar panels and heat pumps were installed** in some buildings in 2023 and 2024, in line with the needs and decarbonization goals of the respective tenants. In 2025, we will launch further energy improvements in several larger buildings (installation of additional heat pumps and new energy-saving devices, replacement of windows and doors, luminaires), **exceeding the previous years in value and volume**.

In addition, it is equally important to implement efficient building operations and **encourage conscious energy consumption**. After 2022, also in 2023, in cooperation with the tenants, we managed to achieve significant savings in both gas and electricity consumption. We will continue to maintain cooperation and intensive relationship, as well as the monitoring of consumption (both for the energy consumption of devices and equipment, as well as for usage habits). In 2024, energy consumption did not decrease significantly further, as gas consumption remained at a similar level to the previous year, while **electricity consumption increased**, largely due to the decrease in the home office ratio, the increase in energy consumption associated with greater office presence, and **the rise of electric cars**. The aim of our developments for the next two years is to reduce our carbon footprint by gradually replacing gas consumption and installing energy-saving equipment, while also offsetting the additional consumption arising from the increasing use of offices. In addition to improving energy efficiency, our goal is to prioritize the aspects of **conscious material use** (e.g. lifecycle, quality, recyclability), minimize waste generated during office design and operation, and maintain and develop the green park, environment and **biodiversity** that gives the Park its unique character.

* * *

We believe that the unique **office park** provided by Graphisoft Park, located **in a truly green environment**, will continue to be in demand by companies employing technology- and knowledge-based, highly qualified employees, and we can expect an occupancy rate of over 90%, which exceeds the Budapest office market. The Company's strategy articulated nearly 30 years ago also works in the light of the hybrid working that has become common in recent years. Although the way and extent of office use and the distribution of the various functions of the rented areas are undergoing significant changes, research and development activities that require a high degree of creativity and intensive cooperation cannot exist without at least partial personal presence. The target market defined by the Company at the beginning, which are **domestic and international enterprises dealing with technological development**, proved to be a good choice even during uncertain economic prospects, since the key to success in this field is **attracting talent**. This is greatly enhanced by the high-quality and environmentally conscious architecture, a uniquely quiet park rich in ancient trees, on the truly green bank of the Danube, surrounded by the monuments of the former Óbuda Gas Works and preserved in a modern way.

(1) Investment properties and investment properties under construction are fair valued in the financial statements, while development lands and owner-occupied property are stated at cost. Development lands are presented under “Investment properties” and owner-occupied properties under “(Owner-occupied) Property, plant and equipment” in the balance sheet. As a result, instead of accounting depreciation, current period change in fair value is presented in the profit or loss.

(2) Estimated net asset fair value contains both development lands and owner-occupied properties on fair value instead of cost.

(3) Treasury shares possessed by the Company and employee shares are excluded when the earnings per share value is determined (refer to Note 1.3 to the financial statements).

Net asset value at book value and net asset value at fair value (equity) are disclosed in Note 23 to the financial statements.

Detailed Analysis

In this business report, Graphisoft Park presents the progress made toward its goals in the following areas:

- 2024 results (“pro forma” results and results according to the financial statements),
- Utilization, occupancy,
- Modernization plans,
- Financing,
- Forecast for 2025,
- Real estate portfolio and development potential,
- Further growth opportunities.

2024 “Pro forma” results

The 2024 “Pro forma” results changed compared to 2023 because of the following main factors:

- **Rental revenue** (2024: 17,261 thousand euros; 2023: 16,845 thousand euros) grew by 416 thousand euros, or 2.5% compared to prior year. In addition to a slightly lower occupancy rate, the increase was due to the euro-based indexation of rental contracts.

- **Operating expense** (2024: 1,857 thousand euros; 2023: 1,612 thousand euros) increased by 15% compared to the same period of last year, which was primarily caused by an inflation-following increase in certain property-related costs and personal expenses.

- **Other income** (2024: 1,003 thousand euros; 2023: 574 thousand euros) is largely the result of periodical developments and refurbishments of the rental property based on the request and expense of the tenants. In 2024, this result was significantly increased by the lump-sum compensation paid by certain tenants in exchange for a reduction in the rent before the end of their contract.

- **Depreciation** charge (2024: 6,447 thousand euros; 2023: 6,937 thousand euros) is 7% lower than in the previous year, due to the depletion of some older assets.

- **EBITDA** (2024: 16,407 thousand euros; 2023: 15,807 thousand euros) grew by 600 thousand euros, which is 4%, while **operating profit** (2024: 9,960 thousand euros; 2023: 8,870 thousand euros) increased by 1,090 thousand euros, or 12% compared to the previous year.

- **Net interest expense** (2024: 1,173 thousand euros; 2023: 923 thousand euros) increased by 250 thousand euros or 27% compared to prior year. The interest paid was less because of the declining principal amounts due to loan repayments, but at the same time, in the changed interest environment, the interest income realized on free funds decreased significantly compared to the outstanding result of the previous year.

- **Other financial result** (2024: 461 thousand euros loss; 2023: 63 thousand euros loss) is primarily influenced by the exchange rate differences of our forint-denominated assets.

- The balance of **income tax expense** (2024: 365 thousand euros; 2023: 21 thousand euros) contains the innovation contribution and the corporate income tax and local business tax of the Group member Graphisoft Park Engineering & Management Kft. The other companies in the Group are exempt from corporate income tax and local business tax obligations based on their regulated real estate investment company status. A significant portion of the 2024 income tax expense was the result of the Group's self-revision of the prior years’ innovation contribution.

- Overall, **net profit** (2024: 7,961 thousand euros; 2023: 7,863 thousand euros) is 98 thousand euros, or 1% higher compared to the same period of last year.

2024 results according to the financial statements

The 2024 result according to the financial statements is 9,121 thousand euros higher than the "pro forma" result due to the following two factors: unrecognized depreciation of investment properties increased the results by 6,221 thousand euros, while fair value changes increased the result by 2,900 thousand euros. The economic outlook and the shrinking demand for office space affect the entire office market, but at the same time, the independent appraiser increased the value of the properties based on Graphisoft Park's higher-than-average occupancy rate, recent contract extensions with significant tenants and the stable tenant base. As a result of the above, the result according to the financial statements in the current year reached 17.1 million euros, in contrast to the 2023 result of 10.2 million euros, when the fair value decreased by more than 4 million euros compared to 2022.

Details of changes in fair values are disclosed in Note 9 (Investment property) to the financial statements.

Utilization, occupancy

Occupancy rate of Graphisoft Park's gross leasable area developed as follows (at the end of each quarter):

Period:	**2023Q1**	**2023Q2**	**2023Q3**	**2023Q4**	**2024Q1**	**2024Q2**	**2024Q3**	**2024Q4**
Occupancy of gross leasable area (%):	**97%**	**97%**	**97%**	**95%**	**95%**	**95%**	**94%**	**94%**
Gross leasable area (m^2):	82,000	82,000	82,000	82,000	82,000	82,000	82,000	82,000

Following a temporary, slight reduction caused by the COVID crisis, occupancy remained stable at 97-98% in 2022-2023, despite the high, volatile energy prices and recessionary environment that characterized the period. At the same time, in the last quarter of 2023, during the renewal of the contracts of several larger tenants, requests to reduce the area arose, thereby reducing the occupancy to 95% by the end of the year. As a result of further lower vacancy rates during the year, the year-end occupancy rate is 94%, however, this occupancy level still exceeds the Budapest office market average (86%), proving the significant and long-lasting demand for office parks dominated by green surroundings as work environments.

Graphisoft Park's tenants make longer commitments than the national average. In addition to the Park's unique natural features, the technological and IT focus created the milieu in which globally listed companies have long been tenants in the Park, such as SAP (since 2005), Microsoft (since 1998), Servier (since 2007), and, of course, Graphisoft SE, the software company that founded the Park but is now operating as an independent tenant since 1998. It should be noted that in addition to our large tenants, the smaller tenants also spend an average rental period of more than 5 years in the Park, with their expiring contracts being extended annually. Due to the characteristics of the Park, we can meet the growth needs of the tenants: start-ups can become tenants of the Park with up to a 1-year contract, and later on, they are also provided with the opportunity to expand in line with their growth trajectory. The average lease term in the Park calculated with the **starting date of current tenants' earliest lease agreements** (in certain cases lease agreements concluded with the predecessor of Graphisoft Park Group) is **15.7 years**. At the same time, the **weighted average lease term to expiry** increased to **4.9 years** because of significant contract extensions in the recent past.

Modernization plans

From 2023, the focus of our renovation and modernization programs will be on projects that increase energy efficiency and optimize energy consumption, which we will implement in constant consultation and cooperation with our tenants. In 2023, in 2 larger buildings (affecting about 16,000 m^2 of leasable area), significant energy efficiency improvements were made (installation of heat pumps and smaller solar panels, replacement of office and improving the energetic properties of some building structural elements). In 2024, we started similar renovations on additional buildings (5,800 m^2), improving the energy efficiency of our buildings and reducing the carbon footprint of the entire park's operation. In 2025 and in 2026, we will start **energy improvements in value and volume exceeding those of previous years** on several larger buildings (installation of additional heat pumps and new, energy-saving devices, replacement of doors and windows, luminaires), **worth more than 3 million euros** according to our current estimates.

In the past period - partly due to the emerging energy crisis - we put a lot of emphasis on monitoring energy consumption, and in cooperation with the tenants, by consciously reducing consumption, we achieved savings of nearly 20% in 2022, and another 10% in 2023. In 2024 however, energy consumption did not decrease significantly further: while gas consumption remained at a similar level to the previous year, **electricity consumption increased**, which can be largely attributed to the **decrease in the home office ratio**, the increase in energy consumption associated with greater office presence, and **the rise of electric cars**. The aim of our developments for the next two years is to reduce our carbon footprint by gradually replacing gas consumption and installing energy-saving equipment, while also offsetting the additional consumption resulting from the increased use of offices. In addition, in all building modernization projects, in addition to energy efficiency, we also keep in mind the conscious use of materials (lifecycle, quality, recyclability) and the minimization of waste generated during the renovation.

Financing

Between 2015 and 2019, the Company borrowed a total of 119,600 thousand euros from Erste Bank Hungary Zrt. and UniCredit Bank Hungary Zrt. 4 times to finance its development goals, refinance its previous loan, and optimize its capital structure. The first two development loans took place within the framework of the National Bank of Hungary's Funding for Growth Scheme. The term of each loan is 10 years, and the interest rates are fixed for the entire term of each loan through currency and interest rate swaps (CCIRSs and IRSs), currently with an average interest rate of 1.91%. At the end of June 30, 2024, the nominal value of all outstanding loans is **79 million euros**, which is currently **34% of the property fair value**. The positive fair value of the interest rate swaps (EUR 1.8 million) reflects the difference between the current financing conditions available in the higher interest rate environment and the Company's fixed loan rates.

Bank	Initial loan value	Due date	Outstanding loan amount on December 31, 2024
	(thousand euros)		(thousand euros)
Erste Bank Hungary Zrt	15,600	27.12.2025	6,890
UniCredit Bank Hungary Zrt	24,000	23.12.2026	14,400
Erste Bank Hungary Zrt	40,000	31.12.2027	27,599
UniCredit Bank Hungary Zrt	40,000	15.12.2029	29,933
Sum	119,600		78,822

Forecast for 2025

In 2025, further vacancies may arise in the uncertain economic environment, primarily due to possible space reduction requests from some tenants, and we also expect a decrease in indexation. We do not expect one-off revenues like those of the past two years (fees paid as compensation for space reduction before the end of the contract) in 2025. Our forecast considered the inflationary increase in operating costs and the unchanged level of depreciation due to continuous developments aligned with our ESG goals.

(million euros)	2022 actual	2023 actual	2024 actual	*2025 forecast*
Rental revenue	15.54	16.85	17.26	*16.7*

- Due to the changing habits of office use and the weakening economic environment, in 2023-2024 some of the tenants only extended their contracts for a smaller area, which resulted in a small decrease in occupancy. In our rental revenue forecast for 2025, we have considered that additional vacancies may arise for a similar reason. In addition, we took into account the decrease in the indexation of rental prices. Based on all of this, we expect **rental revenue of 16.7 million euros for 2025**.

- **Other income** traditionally includes income received for renovations requested by tenants, but in 2024, the compensation to be received for the reduction of certain rental areas before their expiration also increased the other income. **In 2025**, we no longer count on one-off items like this, so the balance of other income and expenses is expected to be around **500 thousand euros**.

- We expect **operating costs to increase by 13% in 2025**, due to, among other things, inflationary increases in service fees, increased personnel payments, and cost elements necessary to achieve the goals set out in our ESG strategy.

- As a combined effect of the above, according to our current calculations, **EBITDA** is expected to decrease to **15.1 million euros in 2025**, falling short of the previous year.

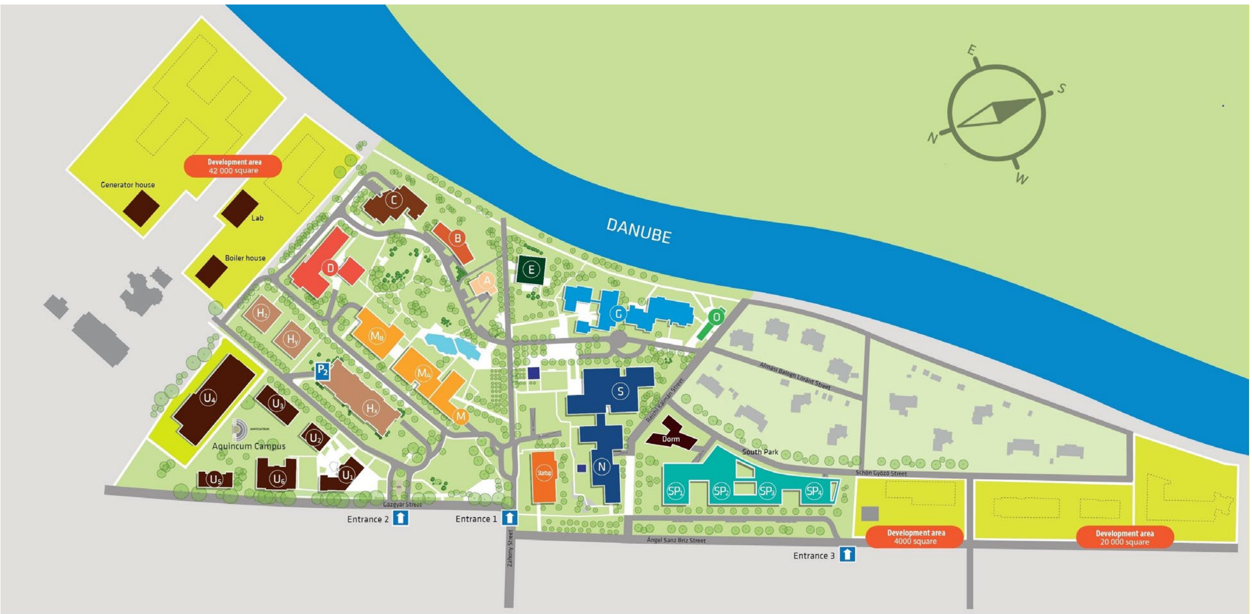
- In 2024, the **depreciation** (which does not appear in the consolidated accounts according to the SZIT rules) due to the depletion of some older assets decreased, however, **in 2025**, as a result of the capitalization of energy efficiency improvements, **no further decrease** of a similar magnitude is expected.

- As part of the **net financial result**, due to the continuous loan repayments, the interest payable on the capital outstanding will decrease. In 2024, due to changes in the interest rate environment, we no longer realized interest income of a similar magnitude to 2023, and the volatility of the forint also caused large exchange rate losses. We **do not expect significant changes** in financial costs in **2025**.

- As a result of all this, the **expected pro forma net profit for 2025 may be around 7 million euros**, significantly below the outstanding results of 2023 and 2024 due to one-off items, but at the same time exceeding the pro forma result of 2022 by approximately 17%.

Further development opportunities

By the completion of the developments in the core and the southern area from September 2018, Graphisoft Park has **82,000 m² gross leasable area** as well as **underground parking for** around **2,000 cars** available for its tenants, ensuring the green dominance in the Park.



The property located between the already built-in South Park I and South Park II development areas, allows the development of an additional 4,000 m² of leasable office space, combined with the neighboring plots already owned by the Company In 2022 we received building permission for the possible development; however, the Company will decide on the initiation of the project at a later date, taking into account the conditions and the possibilities of the construction, in particular the development of raw material and energy prices, the possible capacity limitations and the general economic prospects, in addition to the requests of the tenants.

In view of the expected decrease in the office market, the Company is examining the possibility of developing **residential and service functions** in this area, which would be more appropriate from urban design, urban planning, and business point of view in this area, instead of further office building development, as it is located far from the central area and is also separated by a public road. Currently, the residential property development opportunity is being assessed, which is expected to be finalized in the first quarter of 2025. In this regard, Graphisoft Park concluded a cooperation agreement with Synergy Construction Hungary Kft. After the conclusion of the examination, the partner company will have the opportunity to purchase the area and the project company that owns it under the conditions specified in the Cooperation Agreement.

In the northern area no further preparatory work or development is allowed until MVM Next Energiakereskedelmi Zrt. completes its mandated rehabilitation duties in the area, which is currently considered uncertain (see details below in the “Main risk factors - rehabilitation of the northern development area” section). After the remediation, this northern development area together with the unused part of the monument area will provide room for another 42,000 m² gross leasable area. Altogether this gives **office development potential of around additional 46,000 m² gross leasable area, and as such, the gross leasable area might increase to 128,000 m² in the whole Graphisoft Park.**

In addition to the above, we should mention that next to the 18 hectares of the former Óbuda Gas Works owned by the Company, there is **another 12 hectares of development land** owned by the Municipality of Budapest. Following the required remediation, according to the currently valid regulations, an **additional 120,000 m² area can be developed**, for which an underground garage suitable for accommodating around 3,000 cars can also be built. If the

Municipality of Budapest wishes to sell its development areas, the Company has the right of pre-emption for the larger part of it (7.5 hectares).

Educational function

Key characteristic of the Graphisoft Park concept is the sustained synergy between teams of startup entrepreneurs, global IT and technology focused companies and educational institutions as leading edge „knowledge-factories". In this spirit, the **IBS International Business School**, as well as **AIT-Budapest**, which is based primarily for students from the United States, and the **Real School**, which focuses on environmentally conscious education from an early age, were also located in the Park. Partnering relationships based on tight collaboration between technology firms, start-ups and educational institutions have been shaped among these three main pillars of Graphisoft Park, resulting in mutual support and strengthening and stimulating cooperation. The enhanced physical proximity and meaningful collaboration act as an attractive force and is recognized as a convenient source by all the three sectors. The management of the Park is consciously supporting the balanced presence of all three pillars and application of the full potential offered by their collaboration. We are open to accommodate educational institutions that act as knowledge centers and knowledge factories and fit the Park's concept.

Cultural services

Creative work, research and educational activities are further supported by the Park's Management by sustainably ensuring inspiring environment and numerous cultural services. Our goals are the increase of comfort levels, thus the levels of productivity for all Park tenant's creative and productive staff, the development of tools for promoting communities, hosting of relevant events and programs for further improvement of creative work conditions for all our tenants. For this reason, we organize many open-air music events, periodic photo and painting exhibitions in the Park, and one of the largest outdoor collections of contemporary sculptures in Budapest is also located here. Furthermore, we constantly expand the possibilities of various leisure, sports and recreational activities. We do all this consciously, because **loyal employees affiliated with the Park can guarantee the competitiveness of our tenants in the market.** Management is committed to make the Park feel as a comfortable, pleasant second home for all resident employees, more than just a work-place.

Main risk factors associated with the areas

Rehabilitation of the northern development area:

Due to the prior gasification activity the northern development area is still contaminated. The rehabilitation of this area is the duty of the polluter Capital City Gas Works (currently MVM Next Energiakereskedelmi Zrt.).

The decision to impose a remediation obligation was finally made in 2015, after nearly 20 years of delay. In its decision dated June 29, 2015, file number PE/KTF/1096-39/2015, the Érdi District Office of the Pest County Government Office, as the environmental protection authority, obliged Fővárosi Gázművek Zrt. to remediate the damage in two phases; in the first phase essentially regarding the geological medium (soil exchange and removal) and in the second phase regarding the groundwater. The decision stipulated a deadline of November 30, 2017 for the implementation of the first phase, while the deadline for the second phase was April 30, 2019. The obligor did not start the actual remediation within the time specified for completion but carried out internal administrative preparatory activities. The obligor requested an extension of the deadline several times, which it received in turn.

A deadline extension granted in 2018 was challenged by Graphisoft Park in administrative court proceedings, which it won in court, however, after the decision made on December 12, 2019, the Pest County Government Office conducted new proceedings. In the resolution dated April 30, 2020, the Pest County Government Office stated new deadlines of May 31, 2021, and September 30, 2022.

Government Decree nr. 286/2021 (V. 27.) on the establishment of rules related to certain administrative authority procedures was published under the epidemiological and emergency regulations on May 27, 2021. Pursuant to Section 1 of the Government Decree in force between May 28, 2021, and June 24, 2021, the polluter became entitled to request an extension of the deadline for remediation from the environmental authority, which was obliged to grant the extension. MVM Next Energiakereskedelmi Zrt. submitted the relevant request, which was approved by the authority and the decree ruled out the possibility of an appeal, so the current deadline for carrying out remediation and submitting the final documentation was December 31, 2022.

We requested information from MVM Next Energiakereskedelmi Zrt. about its implementation plans related to the said deadline, to which we received the following information in response. MVM Next Energiakereskedelmi Zrt. still has the necessary permits to call for the construction tender and start construction, and has prepared the necessary documentation for the tender, however, despite its best intentions, it cannot make any responsible statement about the expected completion date of the remediation.

On December 23, 2022, Government Decree of 566/2022 (XII. 23) was published, which deals with the establishment of rules related to certain administrative authority procedures. On the basis of this decree, the legal entity obliged to remediate became entitled to request an extension of the remediation deadline from the environmental protection authority. If the application was submitted, the authority was obliged again to grant the deadline extension. MVM Next Energiakereskedelmi Zrt., which is obliged to remediate the damage, submitted its request for this on December 27, 2022, which was granted by the authority on December 28, 2022. The decree ruled out the possibility of an appeal, so the currently valid new deadline for carrying out the remediation and submitting the final documentation would have been **December 31, 2024**, and the deadline for the remediation of certain sub-areas and for sub-surface water would have been **April 30, 2026**.

However, as of November 19, 2024, the legal environment regarding remediation has changed again, and the legal amendment that entered into force requires a so-called mandatory review for remediation that has not started within 5 years. During the mandatory review, a new, so-called "revised intervention plan" is prepared and thus the deadline for remediation is amended again. The review is ordered by the Deputy State Secretary responsible for Environmental Regulatory Affairs. Accordingly, based on the decision of the Deputy State Secretary responsible for Environmental Regulatory Affairs of the Ministry of Energy **dated December 20, 2024**, the **deadline** for submitting a **new, revised intervention plan to be prepared** by MVM Energiakereskedelmi Zrt. is **December 31, 2026**. During the review period, the implementation of the previous intervention plan cannot be started.

Currently, based on the above changes, the expected new deadline for completing the remediation cannot be determined; the preparation of the new, revised intervention plan itself means a 2-year extension and the actual remediation can only begin after its approval.

It should be noted that the repeated modification of the deadlines for **completing** the remediation, detailed above, always occurred immediately before the deadlines expired, but no substantive remediation **ever began** before these deadlines.

On January 21, 2025, the Company initiated a judicial review procedure, known as an administrative lawsuit, against the decision of December 20, 2024, which abolished the deadline for remediation. The defendant in the procedure is the Deputy State Secretary responsible for Environmental Regulatory Affairs of the Ministry of Energy. According to the Company's position, the decision violates the Constitution, and the rule of law norms were not applied during the decision-making process.

Graphisoft Park still considers the actual start and completion date of the remediation to be uncertain, and the Company still does not see it possible to start any substantial developments in the northern development area within the foreseeable future.

Flood risk:

Potential flood risk due to the location on the Danube waterfront, which is to be reckoned with for the increasing water level fluctuation, despite the old Gasworks rampart protecting the area even during the historical high floods in 2013.

Economic environment:

Since the properties in Graphisoft Park are mainly rented by stable companies, operating in research & development, the utilization of the office park decreased only slightly as a direct effect of the crisis caused by the coronavirus, the surge in inflation and the drastic change in energy prices, and it stands at 94%. At the same time, difficulties caused by economic conditions, the change in tenant behavior and the emerging oversupply in the office market may again result in temporary or longer-term vacancies, so we must once again consider demands for reducing office space and the permanent transformation of office use. Taking into account the risks affecting the rental revenue and the economic environment, due to the increase in market yield expectations, a further, possibly significant devaluation of the fair value of properties cannot be excluded.

***

Forecasts published here are based on the valid lease contracts in effect at the time of writing this report. Factors significantly affecting results are the economic environment, the changes in the HUF/EUR exchange rate (of which effects on the Company’s results are unpredictable due to year-on-year fluctuations), the inflation rate and the regulatory environment with special regards to the tax regulations. In this forecast we calculate with 410 HUF/EUR exchange rate, euro inflation rate of 2.5% and unchanged legal and taxation environment till the end of 2025.

Forward-looking statements *- The forward-looking statements contained in this Interim Management Report involve inherent risks and uncertainties, may be determined by additional factors, other than the ones mentioned above, therefore the actual results may differ materially from those contained in any forecast.*

Statement of responsibility *- We declare that the attached Quarterly Report which have been prepared in accordance with the International Financial Reporting Standards and to the best of our knowledge, give a true and fair view of the assets, liabilities, financial position and profit or loss of Graphisoft Park SE and its subsidiaries included in the consolidation, and the Business Report gives a fair view of the position, development and performance of Graphisoft Park SE and its subsidiaries included in the consolidation, together with a description of the principal risks and uncertainties of its business.*

1. General information

1.1. Business activities

Graphisoft Park SE was established through a demerger from the software development company Graphisoft SE on August 21, 2006. The purpose of the restructuring was to spin off a new company, dedicated to real estate development and management. Graphisoft Park operates as a holding currently having five 100% owned subsidiaries.

The real estate development is performed by the owners of the properties, namely Graphisoft Park Kft., Graphisoft Park South I. Kft. and Graphisoft Park South II. Development Kft. Graphisoft Park Services Kft. is responsible for property operation tasks. Graphisoft Park Engineering & Management Kft. is responsible for the Group's certain property management, engineering, and administration activities.

Graphisoft Park SE (court registration number: CG 01-20-000002) and subsidiaries are incorporated under the laws of Hungary. Registered address of the Company is H-1031 Budapest, Záhony utca 7., Hungary. Headcount was 25 on December 31, 2024.

1.2. Properties

The total area of Graphisoft Park is nearly 18 hectares. Over the past 25 years, 82,000 m^2 gross leasable area (offices, laboratories, educational area, and auxiliary facilities) have been developed and occupied by tenants. Belonging to them underground parking facilities for around 2,000 cars are available. The remaining area provides the opportunity to develop an additional 66,000 m^2 of gross leasable area together with underground parking and auxiliary facilities.

The real estate is categorized as follows:

Area	Property	
Gross leasable area	Office area	58,000 sqm
	Laboratory	7,000 sqm
	Educational area	8,000 sqm
	Storage	6,000 sqm
	Service area	3,000 sqm
	Underground parking	2,000 pcs
Development area	Northern development area (after rehabilitation)	42,000 sqm
	Southern development area	24,000 sqm

(all amounts in thousands of euros unless otherwise indicated)

1.3. Stock information

Graphisoft Park SE's share capital consists of 10,631,674 class "A" publicly traded, marketable, registered ordinary shares of 0.02 euro face value, each representing equal and identical rights, and 1,876,167 class "B" employee shares of 0.02 euro face value.
Ordinary shares of the Company are publicly traded at Budapest Stock Exchange, currently in Premium category, from August 28, 2006. The share ownership structure is the following according to the Company's shareholder records:

	December 31, 2023			December 31, 2024

(1) Treasury shares possessed by the Company do not pay dividend and bear no voting rights. For details refer to Note 22.
(2) Class „B" employee shares are not marketable, connected to employment, may be withdrawn by the Board of Directors at any time, have no voting rights in decisions that require qualified majority and bear reduced rights to dividend at the proportion of fifty percent of their face value. In the financial statements of the Company these payments are accounted as employee related expense instead of dividend. The Articles of Association and the Management Share Ownership Plan govern all other matters related to the employee shares.
(3) As announced on March 12, 2024, the Company transferred 90,000 employee shares to Farkas Ildikó CFO.
(4) Based on the notice sent by VIG Befektetési Alapkezelő Magyarország Zrt (previously known as AEGON Befektetési Alapkezelő Zrt) on February 22, 2024, its share in the Company was reduced to less than 5%.
(5) Based on the notice sent by HOLD Alapkezelő Zrt. on June 28, 2024, its share in the Company increased to over 10%.

(all amounts in thousands of euros unless otherwise indicated)

1.4. Governance

The governing body of Graphisoft Park SE, Board of Directors (single-tier system) is composed of the following:

Name	Position	From	Until
Bojár Gábor	Chairman	August 21, 2006	May 31, 2026
Dr. Kálmán János	Member	August 21, 2006	May 31, 2026
Kocsány János	Member	April 28, 2011	May 31, 2026
Dr. Martin-Hajdu György	Member	July 21, 2014	May 31, 2026
Szigeti András	Member	July 21, 2014	May 31, 2026
Hornung Péter	Member	April 20, 2017	May 31, 2026
Farkas Ildikó	Member	April 28, 2023	May 31, 2026

The Audit Committee comprises of 3 independent members of the Board: Dr. Kálmán János (chairman), Dr. Martin-Hajdu György and Hornung Péter. The Chief Executive Officer of Graphisoft Park SE is Kocsány János.

2. Accounting policies

The accounting policies adopted are consistent with those of the previous financial year (see Notes to the Consolidated Annual Financial Statements of 2023), with the following differences:

Seasonality of business

The Company's business activities are not seasonal; revenues and expenses generally accrue at a constant rate during the financial year. Certain one-off transactions may affect the results from one quarter to the next.

Exchange rates used

Exchange rates used are as follows:

	12 months ended December 31, 2023	12 months ended December 31, 2024
EUR/HUF opening:	400.25	382.78
EUR/HUF closing:	382.78	410.09
EUR/HUF average:	381.95	395.20

(all amounts in thousands of euros unless otherwise indicated)

3. Cash and cash equivalents

	December 31, 2023	December 31, 2024
Cash in hand	1	1
Cash at banks	14,561	12,992

9. Investment property

	Development Land	Completed investment property	**Investment Property**
Book value:			
December 31, 2022	8,354	213,612	**221,966**
Addition	-	996	**996**
Change in fair value	-	(4,422)	**(4,422)**
December 31, 2023	8,354	210,186	**218,540**
Addition	169	1,179	**1,348**
Scrapping	(6)	-	**(6)**
Change in fair value	-	2,900	**2,900**
December 31, 2024	8,523	214,265	**222,782**

2024 additions in construction in progress of 1,348 thousand EUR comprise the following:

- refurbishment of buildings in progress in the core area (670 thousand EUR),
- fit-out works in completed investment properties upon tenants' requests (464 thousand EUR),
- land development (169 thousand EUR) and
- other developments in progress (45 thousand EUR).

The independent valuation was prepared by ESTON International Kft. with the Income approach applied for all periods presented. Properties with occupancy permits were valued based on the Discounted Cash Flow method, while properties under construction were valued based on the Residual Value method. Present value of cash flows from rental fees was calculated with a market-based discount factor reflecting the expected return from investors and creditors (cost of capital).

According to IAS 40 development lands are presented on cost.

The key assumptions applied by the independent appraiser for the periods presented were the followings:

		December 31, 2023	**December 31, 2024**
Rental area	• office, laboratory, and related service areas	73,000 m^2	73,000 m^2
	• education area	6,000 m^2	6,000 m^2
	• Dormitory	3,000 m^2 / 85 persons	3,000 m^2 / 85 persons
Development lands	• rentable area which can be developed	66,000 m^2	66,000 m^2
Long term occupancy		82-90%	82-90%
Average discount factor		7.67%	7.56%

(all amounts in thousands of euros unless otherwise indicated)

10. Trade payables

	December 31, 2023	December 31, 2024
Trade payables – domestic	726	721
Trade payables	**726**	**721**

11. Other short-term liabilities

	December 31, 2023	December 31, 2024
Amounts due to employees and related tax liabilities	66	105
Deposits from tenants	1,157	930
Fair value difference of loans*	510	456
Other payables and accruals	3,113	2,083
Other short-term liabilities	**4,846**	**3,574**

* Fair value difference of loans with preferential interest rate due within one year. Details are disclosed in Note 12 (Loans).

12. Loans

12.1. Loan details

	December 31, 2023	December 31, 2024
Short-term	5,513	11,576
Long-term	78,291	66,340
Loans	**83,804**	**77,916**

(all amounts in thousands of euros unless otherwise indicated)

Loans provided by Erste Bank Hungary Zrt.:

Loan number 1. (Erste)

	December 31, 2023	December 31, 2024
Short-term	779	6,752
Long-term	7,127	-
Loan 1 / Erste Bank Hungary Zrt.	**7,906**	**6,752**

The Company executed a loan agreement with Erste Bank Hungary Zrt. on December 28, 2015, with 10 years maturity to finance the ongoing development in the core area. In accordance with the loan agreement and its modification on December 29, 2016, Erste Bank makes a 4 billion HUF (12.1 million EUR) credit facility available to Graphisoft Park within Pillar I of the second phase of the National Bank of Hungary’s Funding for Growth Scheme and another 3 million EUR credit facility within Pillar II of the third phase of the Funding for Growth Scheme. Main collaterals provided for the bank are as follows: mortgage on real estate, revenue assignment and bank account pledge.

As of December 31, 2024, the outstanding capital of the forint-based facility amounts to 2.2 billion HUF (5,360 thousand EUR); and the euro-based facility amounts to 1,530 thousand EUR. The fair value of the loans (calculated using market interest rates) is 6,752 thousand EUR (see details under point 12.2 below).

In order to manage exchange rate risks associated with the forint-based loan, we have executed a cash flow hedge (CCIRS) transaction agreement on June 24, 2016, covering the entire loan amount and cash flows from the beginning of the loan repayment period until the expiration of the loan contract (from end of 2017 until end of 2025), by which we have converted the forint-based capital and interest payment obligations onto euro base. As of December 31, 2024, the fair value of the cash flow hedge transaction is presented among short-term financial liabilities in the amount of 1,656 thousand EUR.

Loan number 2. (Erste)

	December 31, 2023	December 31, 2024
Short-term	2,022	2,082
Long-term	27,536	25,454
Loan 2 / Erste Bank Hungary Zrt.	**29,558**	**27,536**

On November 30, 2017, based on the decision of the Board of Directors, the Company concluded a new euro-based, 10 years to maturity loan facility with Erste Bank Hungary Zrt., which is complemented by an interest rate swap agreement (IRS) for its entire term from the second half of 2018, thus the interest rate is fixed for the entire term. On December 31, 2024, the fair value of the IRS is 943 thousand EUR, which is presented among the long-term financial assets.

The original facility is worth 40 million EUR. Main collaterals provided for the bank are: mortgage on real estate, revenue assignment and bank account pledge.

(all amounts in thousands of euros unless otherwise indicated)

Loans provided by UniCredit Bank Hungary Zrt.:

Loan number 1. (Unicredit)

	December 31, 2023	December 31, 2024
Short-term	1,252	1,282
Long-term	13,794	12,512
Loan 1. / UniCredit Bank Hungary Zrt.	**15,046**	**13,794**

The Company executed a 24 million EUR loan facility agreement with UniCredit Bank Hungary Zrt. on November 18, 2016, with 10 years maturity to finance the ongoing development in the southern area. Main collaterals provided for the bank are mortgage on real estate, revenue assignment and bank account pledge.

As of December 31, 2024, the outstanding capital amounts to 14,400 thousand EUR, whose fair value was 13,794 thousand EUR (calculated using market interest rates) (see details under point 12.2 below).

Loan number 2. (Unicredit)

	December 31, 2023	December 31, 2024
Short-term	1,460	1,460
Long-term	29,834	28,374
Loan 2./ UniCredit Bank Hungary Zrt.	**31,294**	**29,834**

On November 19, 2019, the Company concluded a euro-based, 10 years to maturity loan facility agreement of 40 million EUR value with UniCredit Bank to optimize the Company's capital structure, which has been already drawn on December 30, 2019. To fix the interest rate, the loan facility is complemented by an interest rate swap agreement (IRS) for its entire term. On December 31, 2024, the fair value of the IRS is 2,561 thousand EUR, which is presented among the long-term financial assets.

Main collaterals provided for the bank are mortgage on real estate, revenue assignment and bank account pledge.

(all amounts in thousands of euros unless otherwise indicated)

12.2. Analyses

Fair value of the loans:

	December 31, 2023	December 31, 2024
Erste Bank Hungary Zrt. Loan nr. 1.*	7,906	6,752
Erste Bank Hungary Zrt. Loan nr. 2.	29,558	27,536
UniCredit Bank Hungary Zrt. Loan nr. 1.*	15,046	13,794
UniCredit Bank Hungary Zrt. Loan nr. 2.	31,294	29,834
Loans at fair value*	**83,804**	**77,916**

* Calculated at a 2.5% market-based interest rate for the loans with preferential interest rate.

Loans with preferential interest rate:

As part of its monetary policy instruments, National Bank of Hungary (MNB) launched its Funding for Growth Scheme (NHP) in 2013, Under NHP, the central bank provides refinancing loans at a preferential fixed interest rate of 0% with a maximum maturity of 10 years to credit institutions which the credit institutions lend further to small and medium sized enterprises with a capped interest margin. The following table shows loan liability for the loans borrowed by the Group within NHP broken down by amortized initial fair value (market rate loan liability) and amortized initial fair value difference (interest rate grant) elements as of December 31, 2024:

	Outstanding loan liability	**Fair value Difference	*Fair value
Erste Bank Hungary Zrt.	6,890	138	6,752
UniCredit Bank Hungary Zrt.	14,400	606	13,794
Loans (NHP)	**21,290**	**744**	**20,546**

* Calculated at a 2.5% market-based fixed interest rate effective at the time of concluding the loan contract.

** Fair value difference of loans with preferential interest rate (government grant received through the Funding for Growth Scheme compensating expenses) are shown under other short-term liabilities (Note 11) and other long-term liabilities (Note 14) and amortized through profit and loss based on the effective interest rate method.

(all amounts in thousands of euros unless otherwise indicated)

13. Fair value of hedges

	December 31, 2023	December 31, 2024
ERSTE Bank Hungary Zrt. loan nr. 1.	(1,439)	(1,656)
ERSTE Bank Hungary Zrt. loan nr. 2.	1,580	943
UniCredit Bank Hungary Zrt. loan nr. 2.	3,419	2,561
Fair value of hedges*	**3,560**	**1,848**
Of which long-term financial asset	4,999	3,504
Of which short-term financial liability	-	(1,656)
Of which long-term financial liability	(1,439)	-
Reserve of the relating cash flow hedge	5,727	4,407

*The period end fair valuation of IRSs has been prepared by the financing banks.

14. Other long-term liabilities

	December 31, 2023	December 31, 2024
Fair value difference of loans	751	288
Other long-term liabilities	**751**	**288**

Fair value differences of loans with preferential interest rate due over one year. Details are disclosed in Note 12 (Loans).

(all amounts in thousands of euros unless otherwise indicated)

15. Revenue

	3 months ended		12 months ended	
	Dec 31, 2023	**Dec 31, 2024**	**Dec 31, 2023**	**Dec 31, 2024**

(all amounts in thousands of euros unless otherwise indicated)

20. Income taxes

	3 months ended		12 months ended	
	Dec 31, 2023	**Dec 31, 2024**	**Dec 31, 2023**	**Dec 31, 2024**
Current income tax	(8)	(351)	(21)	(365)
Income tax expense	**(8)**	**(351)**	**(21)**	**(365)**

Based on the business activity, Graphisoft Park Engineering & Management Kft does not operate under the "SzIT" regulation and therefore is subject to corporate income tax, local business tax and deferred income tax, if applicable. Applicable tax rates are as follow: corporate income tax at 9% and local business at tax 2% both in 2023 and 2024; and additional 0.3% innovation contribution in 2024.

In the case of the innovation contribution, in December 2024, the Group performed a self-revision for the years 2019-2023 to calculate, account and settle the unpaid innovation contribution for those years. The innovation contribution rate is 0.3% of the business tax base and affects the following subsidiaries: Graphisoft Park Kft., Graphisoft Park South I. Kft., Graphisoft Park Engineering & Management Kft. and Graphisoft Park Services Kft. The amount of the innovation contribution in the affected years is as follows:

Year	**Innovation contribution**
2019	40
2020	53
2021	54
2022	61
2023	63
Total	**270**

According to the Group's assessment, the amount of innovation contribution for the years 2019-2023 is not significant, and therefore the amounts relating to previous years were accounted as income tax expenses in 2024.

(all amounts in thousands of euros unless otherwise indicated)

21. Earnings per share

Basic and diluted earnings per share amounts are calculated as follows:

	3 months ended		12 months ended	
	Dec 31, 2023	**Dec 31, 2024**	**Dec 31, 2023**	**Dec 31, 2024**
Net profit attributable to equity holders	2,565	3,788	10,162	17,082
Weighted average number of ordinary shares	10,082,598	10,082,598	10,082,598	10,082,598
Basic earnings per share (EUR)	**0.25**	**0.38**	**1.01**	**1.69**
Weighted average number of ordinary shares	10,082,598	10,082,598	10,082,598	10,082,598
Diluted earnings per share (EUR)	**0.25**	**0.38**	**1.01**	**1.69**

Treasury shares possessed by the Company and employee shares are excluded when the earnings per share value is determined as described in Note 1.3 to the financial statements.

Share ownership details are disclosed in Note 1.3.

22. Treasury shares

*Based on the valuation of the independent appraiser the fair value of the entire property portfolio is 225,472 thousand euros as of December 31, 2023.

24. Remediation of the northern development area

Due to the prior gasification activity the northern development area is still contaminated. The rehabilitation of this area is the duty of the polluter Capital City Gas Works (currently MVM Next Energiakereskedelmi Zrt.).

The decision to impose a remediation obligation was finally made in 2015, after nearly 20 years of delay. In its decision dated June 29, 2015, file number PE/KTF/1096-39/2015, the Érdi District Office of the Pest County Government Office, as the environmental protection authority, obliged Fővárosi Gázművek Zrt. to remediate the damage in two phases; in the first phase essentially regarding the geological medium (soil exchange and removal) and in the second phase regarding the groundwater. The decision stipulated a deadline of November 30, 2017 for the implementation of the first phase, while the deadline for the second phase was April 30, 2019. The obligor did not start the actual remediation within the time specified for completion but carried out internal administrative preparatory activities. The obligor requested an extension of the deadline several times, which it received in turn.

A deadline extension granted in 2018 was challenged by Graphisoft Park in administrative court proceedings, which it won in court, however, after the decision made on December 12, 2019, the Pest County Government Office conducted new proceedings. In the resolution dated April 30, 2020, the Pest County Government Office stated new deadlines of May 31, 2021, and September 30, 2022.

Government Decree nr. 286/2021 (V. 27.) on the establishment of rules related to certain administrative authority procedures was published under the epidemiological and emergency regulations on May 27, 2021. Pursuant to Section 1 of the Government Decree in force between May 28, 2021, and June 24, 2021, the polluter became entitled to request an extension of the deadline for remediation from the environmental authority, which was obliged to grant the extension. MVM Next Energiakereskedelmi Zrt. submitted the relevant request, which was approved by the authority and the decree ruled out the possibility of an appeal, so the current deadline for carrying out remediation and submitting the final documentation was December 31, 2022.

We requested information from MVM Next Energiakereskedelmi Zrt. about its implementation plans related to the said deadline, to which we received the following information in response. MVM Next Energiakereskedelmi Zrt. still has the necessary permits to call for the construction tender and start construction, and has prepared the necessary documentation for the tender, however, despite its best intentions, it cannot make any responsible statement about the expected completion date of the remediation.

On December 23, 2022, Government Decree of 566/2022 (XII. 23) was published, which deals with the establishment of rules related to certain administrative authority procedures. On the basis of this decree, the legal entity obliged to remediate became entitled to request an extension of the remediation deadline from the environmental protection authority. If the application was submitted, the authority was obliged again to grant the deadline extension. MVM Next Energiakereskedelmi Zrt., which is obliged to remediate the damage, submitted its request for this on December 27, 2022, which was granted by the authority on December 28, 2022. The decree ruled out the possibility of an appeal, so the currently valid new deadline for carrying out the remediation and submitting the final documentation would have been **December 31, 2024**, and the deadline for the remediation of certain sub-areas and for sub-surface water would have been **April 30, 2026.**

However, as of November 19, 2024, the legal environment regarding remediation has changed again, and the legal amendment that entered into force requires a so-called mandatory review for remediation that has not started within 5 years. During the mandatory review, a new, so-called "revised intervention plan" is prepared and thus the deadline for remediation is amended again. The review is ordered by the Deputy State Secretary responsible for Environmental Regulatory Affairs. Accordingly, based on the decision of the Deputy State Secretary responsible for Environmental Regulatory Affairs of the Ministry of Energy **dated December 20, 2024**, the **deadline** for submitting a **new, revised intervention plan to be prepared by** MVM Energiakereskedelmi Zrt. is **December 31, 2026**. During the review period, the implementation of the previous intervention plan cannot be started.

Currently, based on the above changes, the expected new deadline for completing the remediation cannot be determined; the preparation of the new, revised intervention plan itself means a 2-year extension and the actual remediation can only begin after its approval.

It should be noted that the repeated modification of the deadlines for **completing** the remediation, detailed above, always occurred immediately before the deadlines expired, but no substantive remediation **ever began** before these deadlines.

On January 21, 2025, the Company initiated a judicial review procedure, known as an administrative lawsuit, against the decision of December 20, 2024, which abolished the deadline for remediation. The defendant in the procedure is the Deputy State Secretary responsible for Environmental Regulatory Affairs of the Ministry of Energy. According to the Company's position, the decision violates the Constitution, and the rule of law norms were not applied during the decision-making process.

Graphisoft Park still considers the actual start and completion date of the remediation to be uncertain, and the Company still does not see it possible to start any substantial developments in the northern development area within the foreseeable future.

25. Events after the balance sheet date

On January 21, 2025, the Company initiated a judicial review procedure, known as an administrative lawsuit, against the decision of December 20, 2024, which abolished the deadline for remediation. The defendant in the procedure is the Deputy State Secretary responsible for Environmental Regulatory Affairs of the Ministry of Energy. According to the Company's position, the decision violates the Constitution, and the rule of law norms were not applied during the decision-making process.

26. Approval of financial statements, dividend

On April 29, 2024, the Annual General Meeting of Graphisoft Park SE approved the 2023 consolidated financial statements of the Company prepared in accordance with International Financial Reporting Standards (IFRS) showing a balance sheet total of 244,123 thousand EUR and a profit for the year of 10,162 thousand EUR. Together with the approval of the consolidated financial statements for issue, the AGM approved dividend distribution of 0.70 EUR per ordinary share, 7,058 thousand EUR in total, and in total 386 thousand EUR on employee shares. The starting date for dividend payments was May 21, 2024. The Company paid out the dividends to the shareholders identified by shareholder’s registration as of May 6, 2024.

27. Declaration

Statement of responsibility *- We declare that the Quarterly Report which has been prepared in accordance with International Financial Reporting Standards and to the best of our knowledge, gives a true and fair view of the assets, liabilities, financial position and profit or loss of Graphisoft Park SE and its subsidiaries included in the consolidation, and the Business Report gives a fair view of the position, development and performance of Graphisoft Park SE and its subsidiaries included in the consolidation, together with a description of the principal risks and uncertainties of its business.*
