

Extraordinary Announcement of 4iG Plc.
on concluding a non-binding Memorandum of Understanding

4iG Public Limited Company (hereinafter referred to as: “4iG”) hereby informs the participants of the capital market that today a cooperation agreement including a non-binding Memorandum of Understanding (hereinafter referred to as: “Agreement”) was signed between 4iG Space and Defence Technologies Private Limited Company (hereinafter referred to as “4iG S&D”) - a member of the 4iG Group - and HM Electronics, Logistics and Property Management Private Company Limited by Shares (hereinafter referred to as: “HM EI”) in order to explore strategic cooperation opportunities in the field of defence digitalisation and to identify opportunities for cooperation based on mutual benefits.

The Agreement specifies that 4iG S&D and HM EI are open to cooperation in several key areas of defence digitalisation, in particular software development, system integration, operations, IT and telecommunications infrastructure development and cybersecurity. As a possible form of cooperation, the parties will also examine the possibility of establishing a joint venture to provide a structured framework for technology development and efficient implementation of domestic and international projects.

HM EI is a key player in the Hungarian defence industry, a 100% state-owned, profit-oriented large-scale enterprise providing high-tech IT and technical developments and solutions for the Hungarian Defence Forces, the Ministry of Defence and other state bodies.

4iG Plc. is one of the largest infocommunication and technology company groups in Hungary. 4iG S&D - the subsidiary of 4iG Plc. - is engaged in satellite manufacturing, earth observation, data transmission and analysis, UAS manufacturing and counter UAS, and the development of advanced defence digitalisation systems. 4iG S&D may acquire a majority stake in N7 Defence Plc. as a result of the acquisition announced on 11 June 2025, which is currently in progress. The aim of the acquisition is to exploit synergies between innovative defence industries and the classic defence industry, to increase the exportability of domestic defence products and to support the entry into the global market.
